

Company: Allion USA
Intern: Russell Miller
Mentor: Chad Meyer
Mentor Phone: 509-995-4444
Mentor E-mail: chadmeyer@us.allion.com
Discipline: Computer Science
Internship Level: Junior Year
August 29, 2011

About Allion USA

Allion is a test site where various forms of technology can be tested, including SATA, USB, HDMI, and especially WiFi. The work is done in contract form through third parties. Short term projects span the pre-release stages of new products that are being developed, such as Amazon's Nook Color. Projects that are more long-term are developed by building a relationship with a company and continuing testing for them. My Role at Allion
